

A DANGEROUS SITUATION! CAUSED BY DYSPEPSIA AND INDIGESTION.

Recall knowledge helps Mr. X. Perimeter.

PRIVATE ARROWHEAD: "What is the matter with you, Mr. X. Perimeter?"
MR. X. PERIMETER: "I wish I knew. Everything is wrong. At one time I think I have heart disease, at another I seem to have kidney trouble, I have pains in my limbs and back, bitter water comes up in my mouth, and I cannot overcome a feeling of lassitude and weakness."

PRIVATE ARROWHEAD: "With all your many symptoms there is only one thing the matter with you. You have chronic dyspepsia."

MR. X. PERIMETER: "Do you mean to tell me that my heart, kidneys and bowels are all affected because of the condition of my digestive organs?"

PRIVATE ARROWHEAD: "Nine times out of ten all sickness starts in the stomach. Your other organs are affected but the digestive tract is the seat of the trouble. If you will try **REXALL Dyspepsia Tablets** and stop experimenting with other remedies you will prove for yourself all I have told you. These tablets cure quickly and permanently the most obstinate and painful cases of Dyspepsia."

REXALL DYSPEPSIA TABLETS

Warranted to cure all forms of indigestion and dyspepsia, or money will be refunded. Price, 25c, 45c, 89c.

RICKERT & WELLS, Druggists

AGAINST EDUCATION BILL.

Dr. Parker's Successor Joins "Passive Resistance" Party.

London, May 15.—There was a remarkable scene in the City temple at the midday service when the pastor, the Rev. R. J. Campbell, the successor of the late Dr. Parker, announced his adhesion to the "passive resistance" movement against the new education bill. When the Rev. Mr. Campbell, who may be regarded as the head of the nonconformists in this country and as voicing the determination of the nonconformists, said he would tender payment of the portion of the rates which was not devoted to sectarian purposes, but added that the collector would have to seize his hall clock and other chattels for the balance, the audience, numbering about 3,000 persons, stood up and cheered lustily for several minutes.

The pastor added that he had heard that Colonial Secretary Chamberlain was likely to advocate the imprisonment of those who participated in the "passive resistance" movement, but he believed that if Mr. Chamberlain imprisoned him his days as a colonial secretary would be numbered, for nonconformity represented half the religious life of the nation.

Insurgent Victories Discredited.

Washington, May 15.—Senator Cramer, the Nicaraguan minister, has received a cablegram from the minister of foreign affairs at Managua which flatly contradicts the recent reports of insurgent victories in Nicaragua and especially the report that insurgents had carried off government vessels from Victoria. Senator Sanchez, the minister of foreign affairs, telegraphed that the steamer *Victorio* had been captured by the government, with all the revolutionists who made up her crew.

Peace at Monastir.

London, May 15.—The under foreign secretary, Lord Cranborne, in the house of commons read a telegram from the British consul at Monastir, European Turkey, saying that while several Christians had been killed during the recent disturbances there had been no further disturbance during the last few days and adding that business was proceeding as usual. The consul also reported that the loss of life was exaggerated.

Holla Declines to Be Umpire.

New York, May 15.—Mr. Frederick W. Holla, who was tendered the position of umpire to act in the settlement of the claims of Germany and Italy against Venezuela, has declined the appointment owing to the pressure of private business.

Mill Workers

who need clear eyes and steady hands, as well as strong arms, prefer

Pillsbury's Best Flour

to any other. The reason is that this flour, being made of Spring wheat, contains a larger percentage of gluten than does other flour.

ROSSEO FROM CHICAGO

McClusky Goes Thither to Seek Umbria Dynamiter.

MAN'S GUILT QUITE SURE.

In His Room in New York Boarding House Have Been Found Left Over Materials of Clock-work Bomb.

New York, May 15.—Inspector McClusky of the detective bureau could not be found at police headquarters, and, as this was the first time he had missed the regular morning roll call, it was generally understood that he had left the city on some new important case in the dynamite case. One report had it that the inspector had gone to Washington, but those best informed pointed to Chicago as the logical place. The inspector's subordinates know so well how to keep their own counsel that nothing could be learned except that McClusky was putting in some personal work on the case.

Commissioner Greene intimated his belief that the man Rosseo, or Rosseau, could not escape. The situation now appears to center in Chicago, where it has been learned, Rosseo lived before he came to this city, and where it is now said the infernal machine was manufactured.

Inspector McClusky's men have found out a good many new things from the boarders at Mrs. Currie's house. Some of the boarders there had associated quite intimately with Rosseo. Robert C. Rivers, one of them, gave the following description of him, which is different in several respects from the former less complete descriptions:

Man of Peculiar Appearance.

"This man could be told in a second by any one who had ever seen him before, for he is really a remarkable man in appearance. He is a little over 5 feet 8 inches tall, weighs about 160 pounds, has an aquiline nose, a very red complexion, a reddish—not a black—mustache, cropped close, and a strong, square, resolute chin. His hair is very black, thick in the back, but thin in front, so that he is almost bald. He has small blue gray eyes and the look of a perpetual scowl. He had a habit of contracting his eyelids when interested in anything that made his small eyes even smaller, and this habit was so strong on him that I doubt if he could stop doing it if he wanted to."

Harry DeBelmonte, a yacht steward, who lived at Mrs. Currie's, said:

"He was an electrician, I am sure, because he spoke of being so several times. He said that he had been in Mexico working for the Edison people on a big contract job they had down there. He also said several times that he was a civil engineer. He dressed plainly, but had plenty of money. He talked good English, but I rather thought he was a Frenchman. When he did talk it was generally about his travels, and he showed perfect knowledge of cities like Montreal, Winnipeg, Chicago and New Orleans. He said that once he had lived in Chicago eight years, and I gathered that he had recently come from there."

In Rosseo's room were indisputable signs that he had been the man who sent the dynamite. In the closet were shavings and sawdust, some nails and screws and a hammer and chisel. When his trunk was broken open it was found to contain splinters of pine boards, parts of a clock, some cogwheels and a bit of black powder fuse exactly like that which was found in the dynamite box.

A CLEW IN CHICAGO.

Infernal Machine May Have Been Made in Boarding House There.

Chicago, May 15.—Advices have been received from the police in New York that it was thought that the infernal machine which was taken to the Cannard docks, to be placed on board the steamer *Umbria*, was made in Chicago by a man named G. Russell, living at 247 Washington boulevard. The house at that number is kept by a Mrs. Ehlman.

She said that a man apparently about thirty years of age, who gave his name as G. Russell, had lived in her house for three weeks prior to April 25, on which day he left, saying that he intended to go east.

The woman said that during his stay in her house he was engaged in some mysterious work, and kept his door always locked. She saw enough of what he was doing, she said, to know that it had something to do with clocks, and that he was always arranging some machinery that had a number of wheels in it.

Relief For Kishineff Jews.

New York, May 15.—The State bank of this city announces that it has received from Brown Bros. & Co. a check to cover a remittance of 1,500 rubles contributed by the Jewish residents of Baltimore for the relief of the Kishineff sufferers. This amount was immediately transmitted by cable to the heads of the Jewish congregations, Perlmutter and Kluegman, for distribution.

The Arkansas Still a Prisoner.

St. Genevieve, Mo., May 15.—The monitor *Arkansas* apparently will remain here for a long time. Another slight fall in the river stage has precluded all hope of her returning to St. Louis, a sounding up stream showing a little over nine feet of water, while the monitor draws eleven. Barges laden with coal have replenished her bunkers.

SIXTEEN YEARS OF CATARRH.

Well Known Massachusetts Woman Cured By Hyomel.

How to cure catarrh has been a problem in medicine for many years that was not solved until the discovery of Hyomel. This remarkable treatment makes it possible for anyone to breathe an air at home which is almost identical with that of the Adirondacks, the Carolinas or other health resorts where the air is impregnated with healing balsams from health-giving trees and plants.

Simply place a little Hyomel in the inhaler which comes with every outfit, breathe it occasionally during the day and benefit will be seen after its use for only two or three times, while perseverance for a few days or weeks will effect a complete cure of even the worst case of catarrh. Mrs. Elvira E. A. Gibson, who holds a responsible position in the great dry goods store of Jordan, Marsh & Co., of Boston, wrote in April: "I had catarrh for twenty years, and the last ten years (all of which time has been passed in this great establishment) I suffered fearfully. One half dozen handkerchiefs per day would be used. It extended to my throat; the base of my tongue was badly affected. I constantly kept in my mouth cardamom seeds, or some such breath purifier. I could not sleep with my mouth closed. I began using Hyomel in December and in two weeks I was entirely—and now, after four months and no return of the disease, I can say permanently—cured. The head of this firm, Mr. Jordan, endorses this statement."

The Red Cross Pharmacy has sold hundreds of Hyomel outfits, consisting of an inhaler, a medicine dropper and a bottle of Hyomel, and with every purchase have given their personal guarantee to refund the money if Hyomel did not cure. They will still sell the treatment on that plan and every catarrh sufferer ought to take advantage of their fair offer.

MISS REICHLIN EXHUMED.

Second Autopsy to Consider Marks on Her Neck.

Lorain, O., May 15.—The remains of Agatha Reichlin have been exhumed at the Catholic cemetery, one mile north of Elyria, in order to settle the question raised as to whether the young woman had been choked as well as struck with a stone on the head. The body was found to be well preserved.

Discolorations were found on the right wrist and upon the neck and a dark blue tinge beneath the right eye. After a conference the physicians decided to make openings in the neck and beneath the eye to discover if possible whether these marks were caused by choking or blows before death or by the action of impeded blood drainage thereafter.

At the conclusion of the examination Coroner French said that the marks found were the same he had seen at the postmortem, but that at this time it was impossible to say how they had been caused.

Alleged Cruelty in County Hospital.

Buffalo, May 15.—The grand jury is investigating the death of Herman H. Graft, seventy-two years old, of North Evans, who died on Sunday in the Erie County hospital. When the body was taken to his late home a bruise was discovered over his left temple and his nose appeared to have been scratched or cut. This was reported to the district attorney's office, and Medical Examiner Howland was sent to North Evans to make an investigation. Besides the marks referred to, he is said to have found a number of cuts and lacerations as if made by shackles.

Rev. Moses G. Knight Dead.

Chicago, May 15.—The Rev. Moses G. Knight, one of the oldest and best known Presbyterian ministers in the United States, died on a Monon train as it was drawing into the Chicago depot. Rev. Mr. Knight had been suffering from Bright's disease. The deceased was born in 1819 in Christian county, Ky. During the civil war he distributed tracts and preached to the soldiers of both armies. He was a zealous member of the American Tract society.

THE PRESIDENT

Of the City Council, Wilkesbarre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkesbarre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. A friend had had a very similar experience and Dr. David Kennedy's Favorite Remedy had cured him, so he recommended this great kidney medicine to Col. Harvey and he is to-day a well-man, hale and hearty. He writes straight to the point:

DR. DAVID KENNEDY:
Dear Sir:—This is to certify that I was permanently cured of rheumatism by the use of Dr. David Kennedy's Favorite Remedy.

WM. J. HARVEY.
Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears. For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, as well as sicknesses peculiar to women, Dr. David Kennedy's Favorite Remedy is unquestionably the greatest medicine known to the medical profession.

It is for sale by all druggists in the **New 50 Cent Size** and the regular **1.00 size bottles**—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.
Dr. David Kennedy's Best Jelly radical cure Catarrh, Hay Fever and Cold in Head. 20c.

FIRE IN SLEEPING CAR.

Passengers Forced to Flee in Scant Attire.

New Haven, Conn., May 15.—Twenty passengers, including sixteen men and four women, had to flee in their night clothing from a burning sleeping car at the Union station. The car was near the rear end of the New York, New Haven and Hartford train from New York for Boston by way of Springfield. When the train reached here sleeping car No. 2,032 was connected with a pipe which supplies the cars with gas and the gas supply was turned on. Immediately afterward a slight explosion was heard, flames burst out and the car filled with smoke. The passengers, dazed with sleep and half blinded by the smoke, made a rush for the doors. A woman was knocked down and suffered a slight injury to her back and right arm, but said she was not seriously hurt. An old gentleman who had difficulty in getting out of his berth close to the point where the fire started was nearly suffocated, but was finally assisted from the car and seemed to be all right after he reached the open air.

The firemen, with the aid of a chemical engine and a stream of water, put out the blaze, and as quickly as possible the railroad officials looked after the comfort of the lightly clad passengers, the women being taken to a nearby hotel and the men provided with overalls and shoes. Some of the passengers remained here all night while others continued their journey to Boston.

BEATEN WITH A BIBLE.

Hawaiian Dies Strangely at Hands of Native Sorcerer.

Honolulu, May 8, via San Francisco, May 15.—A case of a native Hawaiian, who was beaten to death with a Bible in the hands of a kahunna, or native sorcerer, is reported from the island of Hawaii.

The victim was ill in bed, and after being treated by a regular physician sent for the kahunna—the native "medicine man." The kahunna declared that the patient was possessed by devils and proceeded to cast them out by beating him over the head with a Bible. The wife of the sick man was also induced to do some beating, and then the kahunna resumed operations. The man died as a result of the beating. The kahunna has been held for manslaughter.

Denver Strike Situation.

Denver, May 15.—The Citizens' alliance committee decided to adhere to its original proposition for the creation of one general arbitration board, to which all disputes shall be referred. The proposal of the labor unions' executive committee to refer each difference to a committee of the employers and employees directly interested for arbitration was rejected, and a resolution was adopted declaring that plan to be "unreasonable, unnecessary and unduly cumbersome." Unless the labor committee recedes from the position heretofore taken a general strike will be ordered within twenty-four hours.

Passenger Train Ditched.

Columbus, O., May 15.—A Baltimore and Ohio passenger train due here at 11 o'clock went into the ditch one and a half miles north of Bloomingburg at 10:40 a. m. Engineer John May of Newark was instantly killed. The fireman's body is under the engine. Three coaches were badly wrecked. The Baltimore and Ohio management sent a relief train from here, calling on the Pennsylvania also for assistance. There are reports here that many passengers have been injured.

Kent's Counsel Sums Up.

Rochester, N. Y., May 15.—All the morning was taken up in the Kent case by George Raines, attorney for the defense, in the summing up. Counsel scored Dr. Johnson, who performed the autopsy on the dead girl, as having conducted the most inefficient and unsatisfactory autopsy ever held in the county. Mr. Raines declared that the whole Dingle family had conspired to destroy all letters written by her to various members of the family.

Emigrating to Soft Coal Fields.

Pottsville, Pa., May 15.—Many of the mine workers who since the recent strike have not secured employment are leaving for the soft coal regions. Two car loads of English speaking miners from New Philadelphia, Glendville and Mahanoy City have left for Huntington, W. Va., where employment awaits them. Another train load will leave in a few days for the bituminous coal regions of Pennsylvania and West Virginia.

Missionary Arch Dedicated.

Oberlin, O., May 15.—The memorial arch erected to the memory of the thirteen missionaries of the American board of foreign missions who suffered martyrdom in China in 1900 has been dedicated here. Rev. Judson Smith, D. D., of Boston, secretary of the American board, presided. The dedicatory address was delivered by Rev. Frank S. Fitch, D. D., of Buffalo. The arch is a magnificent structure of buff Indiana limestone.

Dies at 114 Years.

Salem, Ore., May 15.—Joseph Bashaw, 114 years old, has been found dead in bed. He was a Frenchman by birth and served in the French war of 1800-15 under Napoleon. He drove an ox team to Oregon in 1847 and was then a gray haired man.

Gold For Argentina.

New York, May 15.—A provisional engagement of \$500,000 gold coin for export to Argentina on Saturday has been made by the local agent of the London and River Plate bank, limited.

Her Housework Easily Performed After Taking Blood Wine

Women who find it difficult to do their housework, who drag about their home with hardly energy enough to lift a broom, who are all tired out; who ache, are lame, languid and distressed, will find in "Blood Wine" a medicine whose peculiar strength-giving properties make it impossible for these all too common ills to exist.

A great many women neglect themselves, and disease follows. "Blood Wine" should be on the kitchen shelf of every home. If taken when one enjoys good health it will keep one from getting out of order. If taken after disease has fastened itself upon the system it will quickly throw it off. Mrs. Elizabeth Marsh of 22 Isabella St., Boston, Mass., owes her present good health to "Blood Wine," though she almost died before she got hold of the medicine. She says:

"I suffered for years with a general run-down condition, due to a bad condition of the blood, which produced a type of dyspepsia. I had at times pains that almost drove me wild, and that left me with scarcely strength enough to get around. A friend, one day, to whom I was telling my story, asked me to try 'Blood Wine,' as it had done her so much good. So I did. I began with small doses and increased as I improved. I soon got so I could eat bread and milk. I continued with the medicine until I had taken several bottles and was entirely cured. Now I eat anything, am strong, healthy and happy, and attribute it all to 'Blood Wine'."

Womb affections, periodical sufferings, and the general lassitude resulting will quickly disappear when the blood is properly treated. It provides nourishment and strength and brings about a natural condition in all the organs. Mrs. Bertha Sanborn of 50 Germaine St., Boston, will testify to that. Her experiences are as follows:

"Your 'Blood Wine' has done more for me than I could express in a letter. I have been subject to womb trouble all my life, and have

FREE BLOOD TEST.

If you don't know what germs are in your blood, the surest way is to have your blood examined. Send your name to the Leitch Dispensary, 114 Co. Worcester, Mass., for particulars. You can have an expert bacteriologist analyze your blood under a powerful microscope and send you a detailed report, without charge. Remember that nearly all diseases have their origin in the blood. You can learn your true condition through an examination of the blood. Take advantage of this offer today. It was never made before.

E. A. DROWN, Druggist.

PRINCE HENRY AT BREST.

First Visit in Years of German Squadron to France.

Brest, France, May 15.—The German squadron commanded by Admiral Prince Henry of Prussia arrived off this port at the same time that the French northern squadron entered. As this was the first visit of German war ships to French waters in years the appearance of Prince Henry's squadron caused much commotion and comment. The German ships fired a salute of eleven guns, which was returned by the land batteries and the French flagship *Masena*.

The German squadron presented a formidable appearance, being made up of seven battle ships and six cruisers. The commander of the German flagship, the *Ariadne*, boarded the *Masena* and paid a formal visit to Admiral De Courville, and the latter returned the visit on board the *Ariadne*. The ships saluted each visit gun for gun. Later the commander of the *Ariadne* visited the port officials, and the German mail was taken ashore.

Prince Henry's squadron came from Kiel and is on its way to Spain and Portugal.

Sultan Warns Governors.

Constantinople, May 15.—The sultan has warned the governors of the provinces of European Turkey that they will be held personally responsible in the event of massacres occurring in the territories under their jurisdiction.

Cleopatra II. Second.

Paris, May 15.—W. K. Vanderbilt's Cleopatra II. was second in the race for the Prix de Compeigne at the Bois de Boulogne meeting.

Tropical Worms Attack Miners.

Berlin, May 15.—The government commission which has been investigating the tropical worm disease which has attacked 20,000 Westphalian miners reports that only those who rarely see the sunlight are afflicted. The disease is frequently fatal and causes inability to labor. The government has decided to employ 150 doctors specially trained to combat the malady. The sufferers will be isolated. Cleanliness and sunshine are the principal remedies.

Emile Loubet, Jr.'s First Communion.

Paris, May 15.—The newspapers here give prominence to reports of the first communion of Emile Loubet, Jr., son of the president of France, which he received in the Church of St. Philippe du Roule. The president was not present, but Mme. Loubet assisted at the usual religious ceremony. Some of the papers seek to attach significance to the president's absence, intimating that it was in connection with the suppression of the religious orders.

Storing Coal Under Water.

London, May 15.—An important admiralty experiment of storing coal under water has been commenced at Portsmouth. All the naval stations report that stores of coal wharf exposed to the atmosphere deteriorate. Some twenty tons of Welsh coal have now been submerged, enclosed in wooden cases, and will be raised a year hence, when their steam raising capacity will be tested.

Sugar Goes Up.

New York, May 15.—All grades of refined sugar have advanced 5 cents a hundred pounds, making the price of standard granulated 4.85.

After Baby Comes

there is nourishment for both convalescent mother and nursing child in

ANHEUSER-BUSCH'S

Malt-Nutrine

TRADE MARK.

It is an already digested food easily retained by the most delicate stomach. It restores health and strength—supplies the nutriment needed—builds flesh and tissue.

A real malt extract—not an intoxicant; contains less than 2% of alcohol.

All druggists sell it. Prepared by the

Anheuser-Busch Brewing Ass'n

St. Louis, U. S. A.
